Spa News Flash #12 – March '09

Jane Iredale Skin Care Makeup

I have looked into my Spa News Flash archives and checked what was our spring newsletter about last year. And you know what? We were waiting for spring to come: "this year it is taking a long time for its warm, sunny days to come". One year later we are waiting for the spring again. But at Spa Space we have some hot news for you.

We waited so long for it but finally it's here!!!!!! Makeup that's actually good for the skin. Well-tolerated by even the most sensitive skin.

Thanks to break through technology each base has broad-spectrum (UVB/UVA) sun protection up to an SPF 20. It's also water resistant, non-comedogenic and allows the skin to breathe and function normally. The minerals are anti-inflammatory, anti-microbial and contain potent antioxidants like Pycnogenol. Especially effective for rosacea and acne. Use mineral makeup daily, for special occasions and even after surgery.

Four in one – foundation, powder, concealer and sunscreen, and will disguise almost all skin discolorations.

Broad-spectrum sun protection – Titanium dioxide and zinc oxide, physical sunscreen ingredients, give instant UVB and UVA protection.

Fast, weightless coverage – Because we use pure pigment with no fillers such as talk, one quick application provides unsurpassed coverage that needs minimal touch-ups.

Non-comedogenic and oil-free – The minerals lay a protective filter on the skin, which allows it to breathe and function normally. All our products passed comedogenicity laboratory tests.

Minimum allergy risk – All products have been laboratory tested for sensitivities – none recorded.

Inert – Because minerals are inert, there is very little risk of cross-contamination.

Quality – We use state-of-the-art ingredients to ensure the finest performance in coverage, application and texture. Our vitamins and antioxidants are pharmaceutical grade and certified organic where available.

Products not tested on animals. With your first application, you will see what makes this line so different.

Purepressed Base SPF 20 – Quick, simple, effective.

You will apply a foundation, powder, concealer and sunscreen in one stroke. Our pure pigment powders are enhanced with powerful antioxidants and algae extract, which are nutritive for mature skin, soothing for sensitive skin, help prevent moisture loss and protect against damage from UV radiation.

Amazing Base SPF 20 – All the benefits and ingredients of the pressed powder with more glow. Especially useful for camouflaging redness, bruising, scarring, hyperpigmentation and vitiligo.

Active Light Under –Eye Concealer – A completely unique formula with ingredients that create a soft-focus effect – it conceals while it brightens. White Tea and Cucumber Extracts soothe tired eyes, and its Buckwheat Wax may even help reduce puffiness.

Enlighten Concealer – Specifically designed to help cover hyperpigmentation. Its peach/orange color counteracts ashy bleedthrough. Contains Arbutin, a natural lightener that inhibits the formation of melanin pigment by inhibiting tyrosinase activity.

Disappear – So heavily pigmented it will cover black tattoos. Use it to conceal skin conditions such as acne, port wine stains and scars. In a liposome-base formula with Green Tea Extract to help clear blemishes.

Purematte Finish Powder – Wear this translucent powder under or over the minerals to help to absorb oil and stay shine-free all day. For those who love loose powder our translucent Amazing Matte uses rice powder to absorb oil.

D2O Hydration Spray – Use to set the minerals and conceal pores and fine lines. Oily skin may use as a moisturizer and all skin types as a hydrator.

Balance Antioxidant Hydration Spray – For all skin types, but real friend if you have oily skin. With Green Tea Extract at 3% which has been shown to have a measurable effect on breakouts. Use to set minerals and enjoy its citrus fragrance at the same time.

LipDrink SPF15 - UVA/UVB protection without chemical ingredients, just edible zinc oxide. Macadamia nut oil moisturizes and conditions – absolutely **no petroleum-derived** ingredients with delicious citrus flavor.

Happy Return!

As announced earlier, we are very pleased that our dear co-worker and friend Ronda Diggon just came back to Spa Space. Rhonda left last September to take care of her new grandson. After a while she decided that she was missing all of you too much to be so far away.

Rhonda resumed her position in February.
For appointment, please call 250 479 3432
We hope that for all who missed Ronda, this indeed is good news!

Loyalty Program from Guinot and SwissLine

Good news for our valued customers!!!!!!

For every \$50 net purchase of Guinot skin care product you will receive one credit. 10 credits - and you will receive \$50 gift certificate towards your next Guinot skin care product.
