Spa News Flash #3 – Nov. '06

Good News for Guinot Users!

On November the 1st Guinot launched a new eye product: Age Logic Eye. It is a very good and exciting news for those clients who are using or have used in the past Age Logic Face. We know how silky the face feels after the use of that face cream. Imagine it under your eyes. The new eye cream is much stronger than lifting, rejuvenating and soothing Longue Vie Eye.

The new Age Logic Eye diminishes wrinkles and crow's feet as well as tones and lifts the eyelids. Vitamins E and C fight the formation of free radicals. The key ingredient achieved by biotechnology in laboratory in Paris called ATP (adenosine triphosphate) is responsible for storing and delivering the energy needed for cells' vital functions.

Plastic Surgery – what to know

More and more often we meet clients having plastic surgery. Pre- and post-surgical skin care should be discussed with a licensed esthetician. We can help with proper moisturization, control of post-laser erythema (redness), diminishing the look of swelling and every day home skin care.

Years ago plastic surgery was only for "rich and famous". Now it is performed daily in every big city. Very popular are so-called "lunch time" face lifts and peelings or Botox injection office parties.

There are two main types of plastic surgery: cosmetic and reconstructive.

The reconstructive surgery refers to surgery that is performed to correct noncosmetic problems like skin cancer removal, post-accident or injury surgery or other physical abnormalities.

The cosmetic surgery refers to procedures used for cosmetic purpose like face, eyelid and forehead lifts, microdermabrasion, liposuction, chemical peeling, laser resurfacing, collagen, restylane and botox injections, breast augmentation, varicose vein therapy.

Some types of cosmetic surgeries:

1. Rhytidectomy- known as a face-lift
2. Blepharoplasty – known as a "lifting" of the eyes and removal of excess skin from the eye zone.
3. Rhinoplasty – known as a procedure of alternating nose shape.
4. Liposuction – known as a surgical removal of fat deposit.

The esthetician should meet with the client few weeks before the surgical procedures and establish the plan of the treatment. We are happy to inform that our skin care line, Guinot, has prepared medical solutions for our clients for pre- and post- surgery care. We can help to prepare the skin for the laser treatments, injections and lifts as well as take care of it after the treatment.

Although the passing time shows that we as estheticians cannot escape the plastic surgery era and need to work with it, we still believe that the prevention is less costly and have neither side effects nor down time. Simply healthy diet, exercise, sun protection, proper home skin care and regular visits to the esthetic salon will help to maintain natural beauty of the skin.

Stock-up On Polish

Just to inform you that we have on sale right now 25th Anniversary OPI polish collection - 40% off on all the colors from the collection. This really is an attractive offer, worthy your consideration.

And, The Winner Is...

As you may well remember, one of the attractions at our Grand Opening Event was the draw for an exquisite FREE treasure chest full of the finest Guinot cosmetics. Well – **the treasure chest draw is back!**

On December 1st our new, fine, hand made Syrian Treasure Chest comes out, filled with Guinot face and body skin care products.

This face skin care chest is valued at \$245.50 + the rare chest (value \$100), great for jewelry or other fine things! The draw will take place at the Spa Space on January the 2nd 2007. Visit or call us for details! Good luck!
