Spa News Flash #9 – April '08

Is spring coming this year?

We have been waiting for the spring to arrive, to send our "spring newsletter". This year however it is taking a long time for its warm, sunny days to come.

So, we decided to write our newsletter anyway and see if this will bring the spring sooner.

Change of staff!

Most of you noticed that we said goodbye to our dear receptionist Chris Townsend. We would like to thank Chris very much for her tremendous help and support in the last 17 months of our business. We are also happy to welcome our new receptionist Fiona Duval.

Unfortunately we also said goodbye to Debby, who worked at the Spa as a body worker. Happy retirement Debby!!!!

Her place will be taken by Jenny Trost with whom we had the pleasure of working a few years ago. Jenny has been practicing massage for 10 years and complementary health care for 15 years. She graduated in 1993 from Canadian College of Acupuncture and Oriental Medicine with a diploma in Traditional Chinese Medicine.

Shortly after graduation, she fell in love with essential oils - the liquid form of herbs - and completed aromatherapy certification in 1998. Since then she has integrated a range of manual therapies into her practice, including LaStone therapy, lymph drainage, reflexology and craniosacral therapy. She teaches at the West Coast College of Massage Therapy.

Jenny's work stimulates the parasympathetic response – the body's natural tendency to "rest, digest and repair". To see Jenny at Spa Space please book an appointment with Jenny directly, by calling: 655-1227 Or 380 8014. We hope that you will enjoy our new Staff.

New Guinot product!

Guinot Moisturizing Serum has been discontinued and replaced with Moisture Replenishing Treatment for dehydrated skin. And let me tell you, it is the instant in-depth concentrated treatment!!!!

It gives the skin a radiant complexion, smoothes and reduces dehydration lines.

Key active ingredients are :

- hydroplasm- hydrates the cellular cytoplasm
- hydrastructurine- provides long term hydration
- macadamia oil- nourishes the skin.

More Product Changes

We will be also changing one of our product lines. Wilma Shuman products (30%off till quantities last) will be replaced with an excellent European line SwissLine made in Switzerland by Dermalab, and is one of the most exclusive lines of Swiss paramedical care products available today.

Swiss Line was founded more than a decade ago, and works with recognized clinics and laboratories all over the world. Ongoing research has led to refined botanical formulas that are specifically reserved for this product line. In 2002, Swiss Line chemists succeeded in using revolutionary biotechnology, in the Cell Shock line, to replace animal by-products with vegetal **Phylderm**, an entirely botanical extract from **Cellactel 2 soy**.

Swiss Line now offers six anti-aging product lines that meet specific needs and that are made, among other things, from alpine plants, glycolic acid, collagen from marine sources, and hyaluronic acid.

In association with internationally renowned dermatologists and laboratories, Swiss Line products are designed according to Switzerland's highest quality standards.

Stay Tuned!

Subscribing to our news on-line, you will be the first to know about our special promotions and offers, our new staff, and much more. www.spaspacevictoria.com If you received this newsletter from a friend, visit our Web site and subscribe on-line to get your own copy and don't miss out on valuable offers!

And, perhaps share your newsletter copy with friends. They will surely thank you for that, and you will get bonus points.

We hope to see you soon, and please always remember – if you are not sure what's best for you – we offer FREE skin consultation. So, book on-line, or call us now!

We wish everyone a warm and sunny spring. Thank you and see you soon!

- Grazyna, Rhonda, Fiona and Jenny
